LINIE DESIGN

HANDMADE RUGS

ABOUT LINIE DESIGN

Established in 1980, Linie Design is a Danish design house with traditions rooted in Scandinavian design and handcrafted rugs. Combining our heritage and values with traditional craftsmanship, contemporary aesthetics, and uncompromising quality, we create rugs designed to last. Our commitment to trust and transparency ensures excellence throughout our supply chain, spanning over 70 countries.

Our designs are handmade in India by skilled artisans and predominantly crafted from natural, renewable materials like wool, cotton, and linen. Each rug's individual characteristics are defined by the specific weaving, tufting or knotting techniques. Depending on the intricacy of the design, an artisan can spend weeks or even months finishing a rug.

While deeply rooted in tradition, innovation drives us forward. We continually explore new patterns, materials, and techniques, pushing creative boundaries to redefine modern rug design. Today, our design team is led by Head of Design Urd Moll Gundermann.

Since 2008, we have been proud members of Care & Fair, supporting education and empowerment programmes for weaving communities in India. Through our own Linie Design School, we fully cover the costs of education for over 340 children. Our code of conduct reflects our dedication to social responsibility, sustainability, and ethical business practices.
