

# NICOLA COFFEE TABLE

## Assembly Instruction

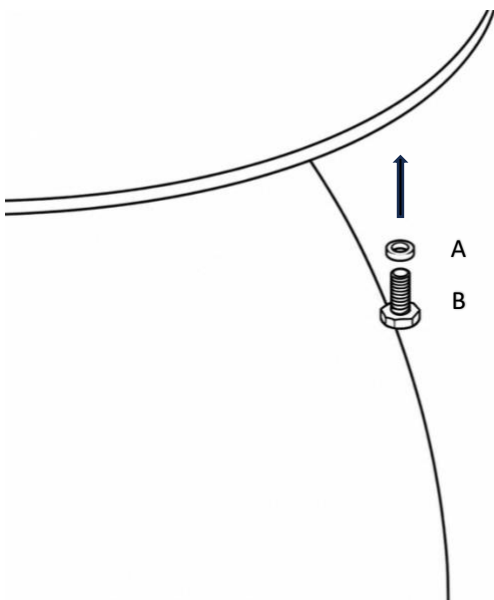

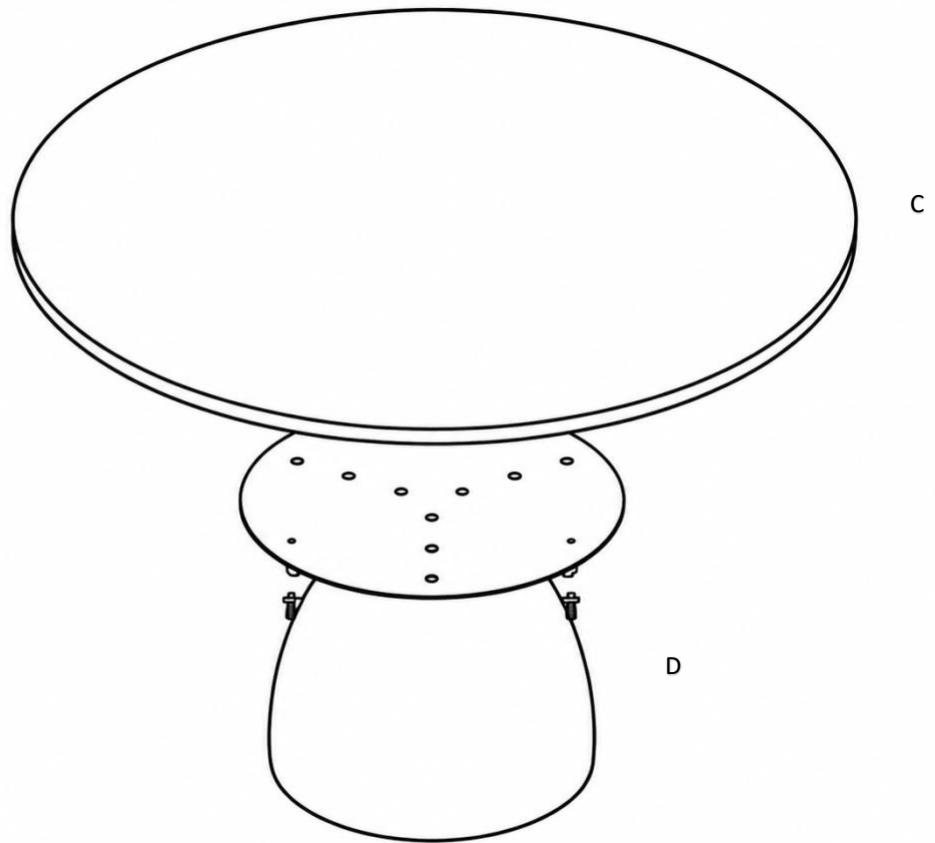

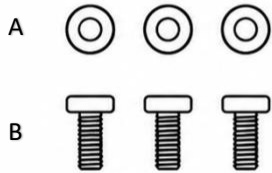

10 mins

2 People

Do not carry the assembled product as one piece.  
Always carry the tabletop and base separately,  
even after assembly.

#### Attaching the Tabletop

1. Place the Stone Top (C) onto the Underpart with Metal Hardware (D).
  2. Insert all 3 Plastic Head Screws (B) with Washers (A) loosely into their respective holes — do not tighten any screw at this stage.
- Once all 3 screws are in place, tighten them equally.

**Note:** Do not fully tighten one screw before the others are inserted, as this may cause misalignment or damage. Do not attempt to remove the pre-installed metal hardware.
