

NICOLA TABLE ASSEMBLY INSTRUCTION

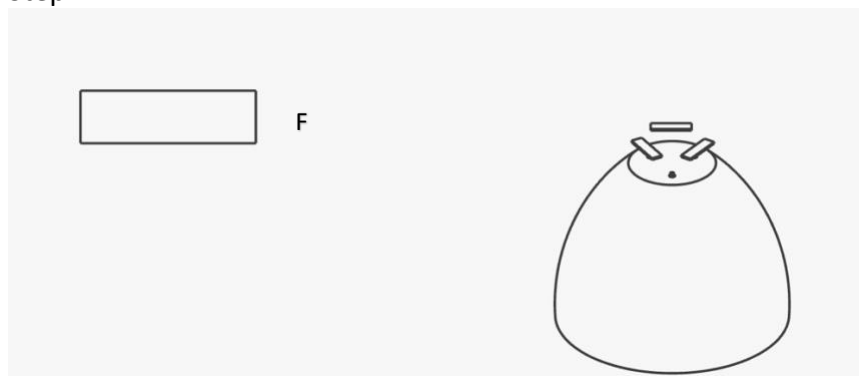

Step1

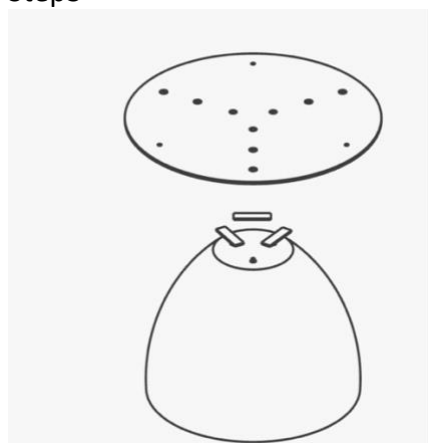

Please install three template screws (none-head screws) into the underpart.

Step2

Please stick three double adhesives on underpart. Be careful not to cover underpart holes. Please take out the double adhesive surface protector.

Step3

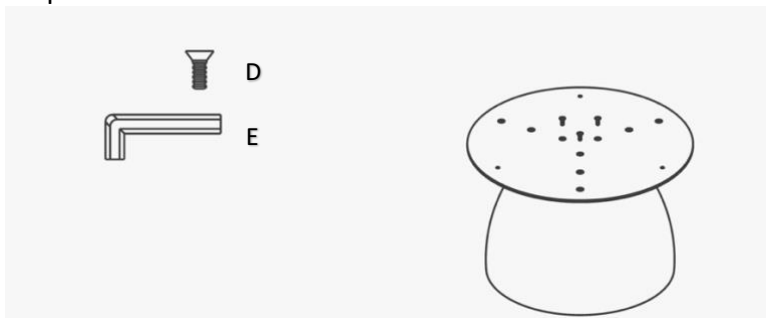

Please put metal hardware on underpart. You can install easily with help of template screws. After place right, please push on the surface. So double adhesives can combine underpart and hardware better.

Step4

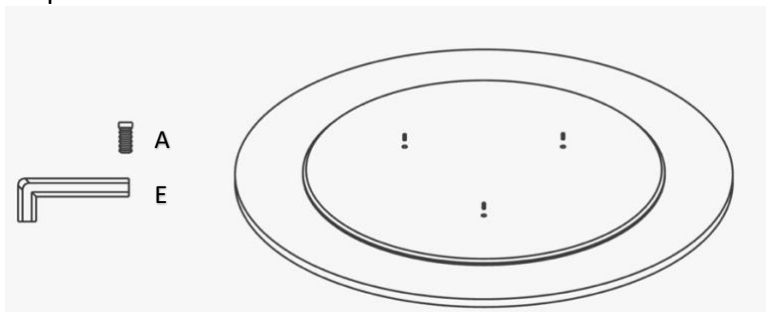

Please take out three template screws (none-head screws) from the underpart.

Step5

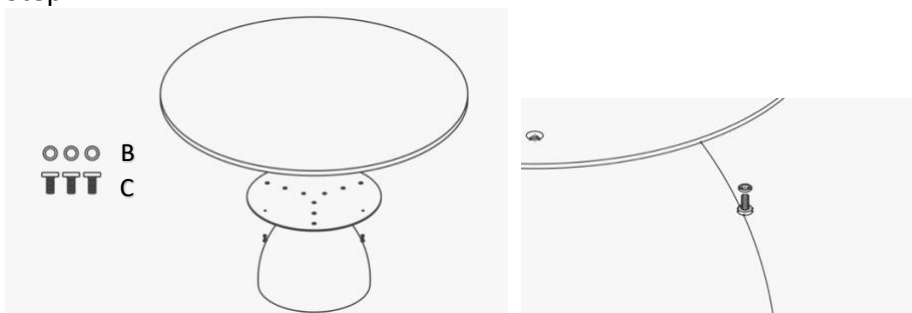

Please install three screws into the underpart middle three holes to combine underpart.

Step6

Please reuse three template screws for tabletop downside holes.

Step7

With the help of template screws, place tabletop on metal hardware. Then take out all template screws and install white head screws with washers to combine top and underpart.
